Enhance external communication for ownership/service programs to attract customer visits, boost program sales and strengthen retention

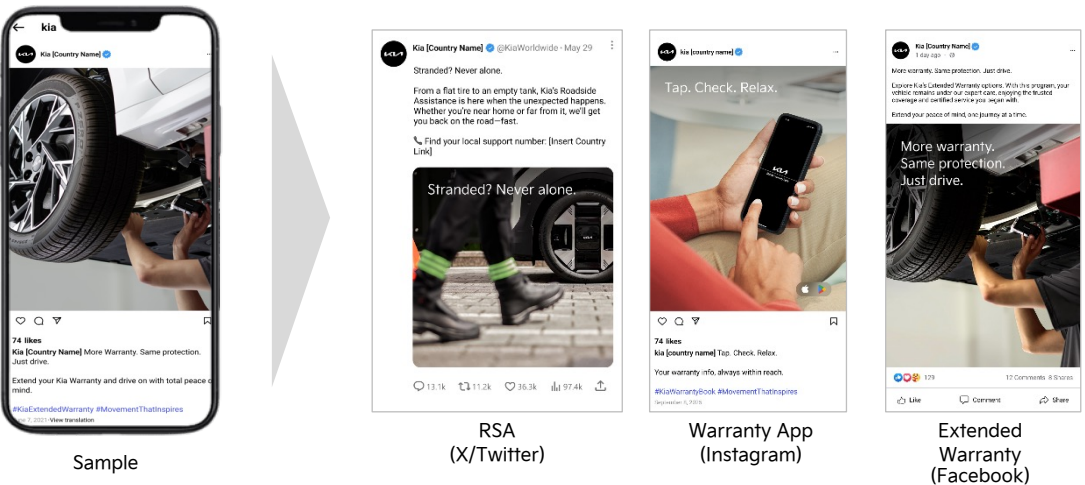

① Enhancing the KWCMS Owners section: Phase 2

- Reflect new ownership programs and upload new vehicle-related content

② Ownership Social Media Marketing Implementation

- Support markets with assets (images, caption, etc.) for the Ownership webpage and social media marketing

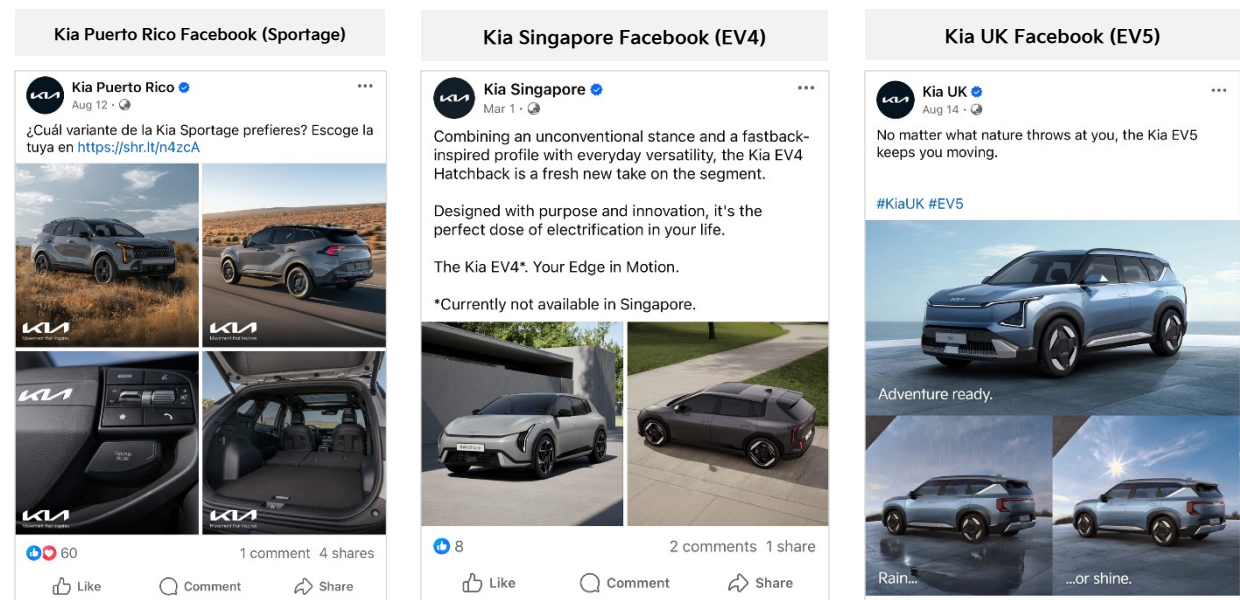

※ Phase 1 in 2024: transforming from "Service" to "Owners"

1. Background

To raise awareness of Ownership Programs, boost sales and website traffic via social media platforms (e.g. Facebook, X, Instagram, etc.)

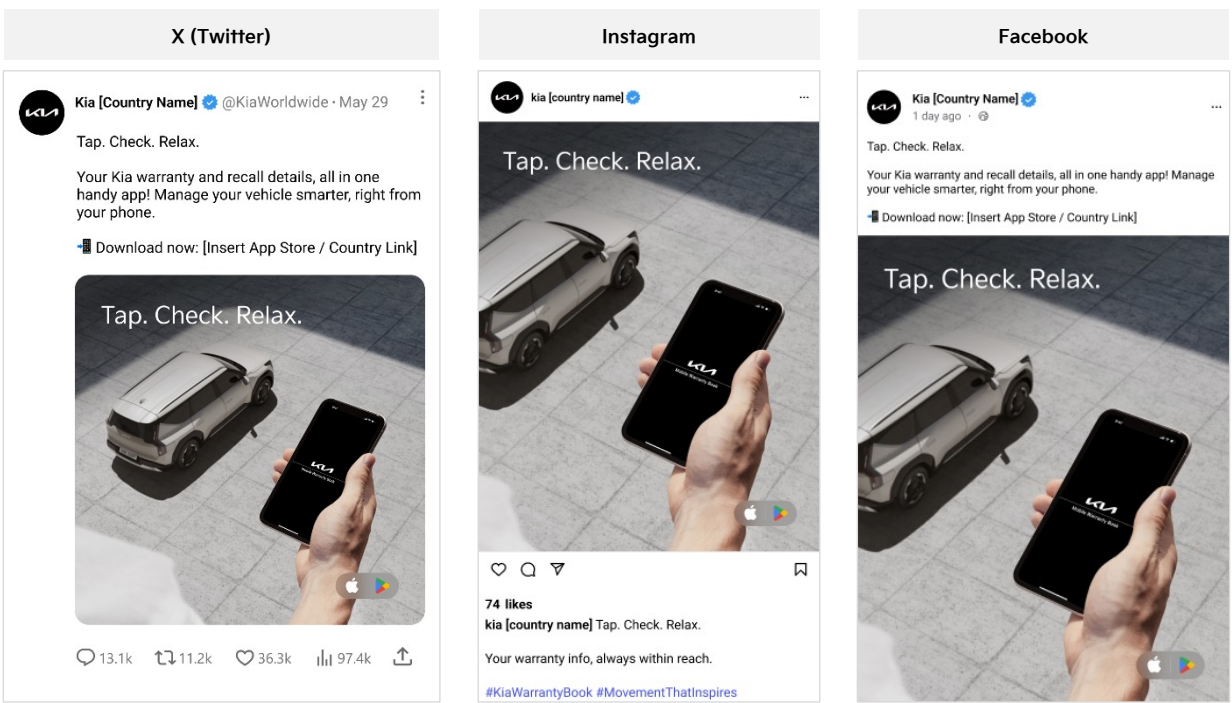

AS-IS

- Social media marketing focused on new models and their USPs
- Only a small number of markets are carrying out communication about Ownership/Service

TO-BE

- Regular social marketing activities for the Ownership Program on three platforms (X · Instagram · Facebook)
- Each dealership will manage independently for other platforms

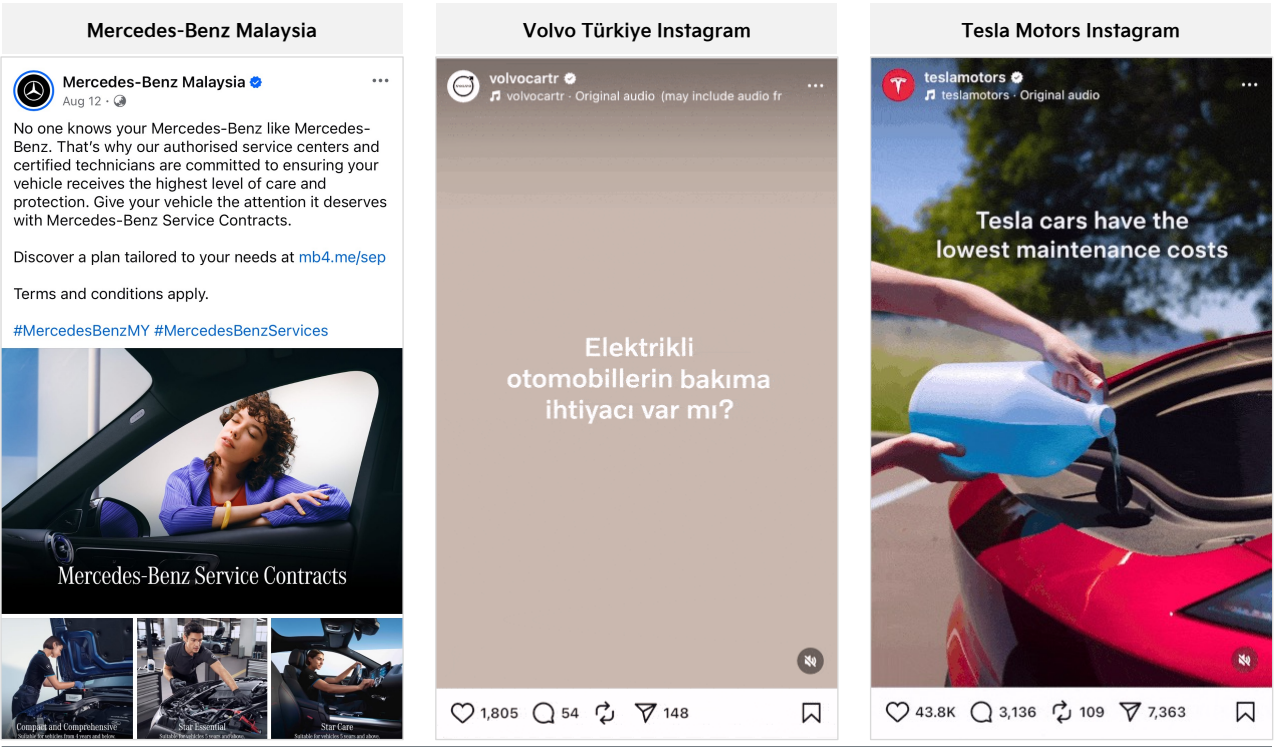

2. Current Status Analysis

Competitors regularly conduct Ownership marketing activities for strong user engagement

Regular publishing of ownership content is essential, in cooperation between KHQ and markets

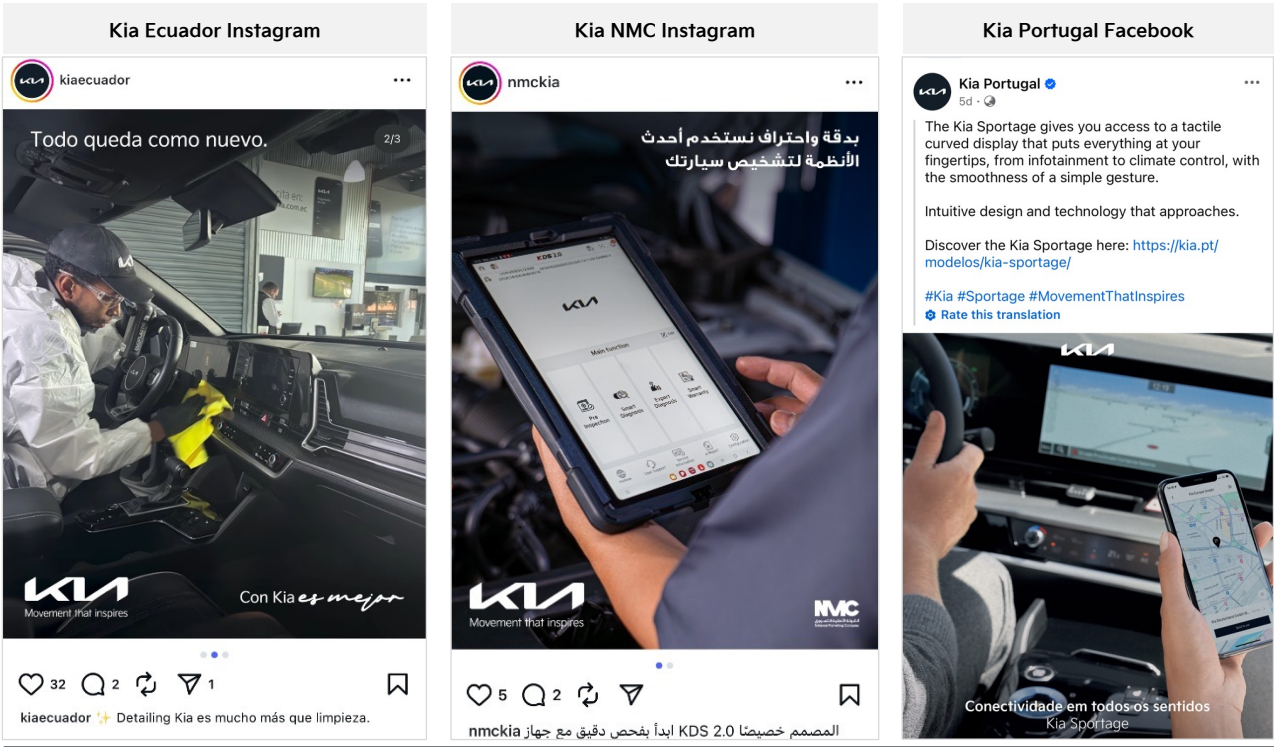

Competitor Reference

- Regular ownership content with various topics including maintenance, ownership cost reduction and EVs
- Quality content for each platform in various formats for effective message

Kia Reference

- While Ownership content is published in a few countries, they are confined on an irregular and infrequent basis

3. Platform Characteristics and Utilization Plan

Strategies based on each user and platform characteristics are necessary

By utilizing appropriate formats, lengths and copy tone, user reaction and user reach impact will be maximized
